

**AIB introduces better deals on travel insurance
8th May 2006**

AIB today announces 10% discount on all travel insurance purchased online at www.aib.ie/travel. Also today, AIB introduces an additional range of products that offer significant savings for customers with private health insurance.

Most private health insurance policies already have cover for medical expenses abroad. AIB Travel Insurance is designed so that customers don't have to pay twice and only buy the cover they need. Members of VIVAS Health, BUPA and VHI can all make a saving and the options available are not just limited to annual policies.

Cover can be obtained instantly over the phone at 1800 24 24 67 or online at www.aib.ie/travel, where an additional 10% discount is available. Single trip cover for European travel, purchased online, costs from as little as €17 for a single person and €22 for a family. Confirmation of policy number and emergency telephone numbers is sent by text message – so customers have that important information while away from home.

Alan Holmes, Head of General Insurance Products, AIB, said: -

"We are delighted to announce the launch of AIB's new travel insurance products, which now offer better value, more choice and flexibility. With annual multi-trip or single trip cover in Europe or worldwide, as well as discounts for those with health insurance, customers can be sure they won't pay for cover they don't need."
