

**AIB launches special offer on fixed term deposits  
30th April 2007**

AIB announced today that savers who have between €6,000 and €50,000 and would like a secure return after 18 months on their lump sum, can earn a highly attractive fixed rate of 6.50% (A.E.R. 4.26%) on fixed term deposit accounts opened from 30th April to 7th June.

This account provides smaller depositors with access to money market linked rates, an area which is normally the preserve of business and larger depositors.

This initiative further enhances AIB's very competitive range of savings and investment products. AIB already offers market leading rates on regular and online savings.

Commenting on these special offers, Hugh O'Keefe, Head of Resources Strategy & Products, AIB Bank ROI, said: "To coincide with the final SSIA maturity date we are launching this limited offer on our very popular Term Deposit Account. Over 500,000 people are due to receive their SSIA lump sum on 1st May. We are offering them a great fixed rate, over 18 months for all lump sums between €6,000 and €50,000. This latest offer further enhances the extensive range of alternative Savings and Investments options available from AIB."

\*A.E.R. is Annual Equivalent Rate.
