

**AIB announces new lump sum online deposit account  
26th November 2007**

**AIB announces new lump sum online deposit account  
5.00% AER available**

AIB today announced a new lump sum online deposit account. The 'Online Notice Deposit 7 Account' offers customers up to 5.00% AER and is available through AIB Internet Banking.

This latest offering complements AIB's existing 'Online Personal Savings Plan' which is geared towards the regular monthly saver. Both of these online accounts offer an alternative to customers who prefer to do their banking online instead of through their local branch – while having the peace of mind of a familiar Irish brand.

This account is available through AIB Internet Banking and has the following features:

- 5.00% AER for sums up to EUR10,000.
- 3.50% AER for sums between EUR10,001 and EUR100,000.
- No lodgement restrictions – customers can transfer money into the account at any time from any account on AIB Internet Banking.
- 7 days notice to withdraw funds is required online

**Hugh O'Keeffe, Head of Resources Strategy & Products, AIB, said:** "Our new 'Online 7-day Notice Deposit Account' puts customers in control of their money giving them the convenience of operating their account completely through AIB Internet Banking.

"From today, AIB is the only bank operating in the Irish market offering separate online cash options for both regular monthly savings and lump sums. Combined with attractive headline rates this offers customers another great reason to be with AIB."

**- Ends-**
