

Information Notice: AIB Response to Russian Invasion of Ukraine and the Humanitarian Crisis in Ukraine

We wish to express our concern and sympathy to everyone affected by the Russian invasion of Ukraine.

As part of the global and European banking community, we recognise the role of banks in the implementation of financial sanctions and we will continue to comply with all obligations in this regard.

In response to the resulting humanitarian crisis in the region, we are actively supporting our charity partner GOAL and its Emergency Response Teams on the ground.

Our actions so far include:

- We have donated €250,000 to support GOAL's Ukraine Emergency Appeal in the immediate term, as part of an overall €500,000 commitment to support those in need.
- We are matching all funds raised by our employees to this Appeal.
- We are promoting this Appeal on our social media and other channels.
- And we are refunding AIB International Payment charges to customers who send money to family, friends and charities in Ukraine.

Please join us in supporting the GOAL Ukraine Emergency Appeal at goalglobal.org

In Ukraine and border countries, GOAL is working with local partners to support the humanitarian response, including supporting refugees and internally displaced people, providing food, water, shelter and basic non-food items along with refugee reception services.
