Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparts with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparts (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet).

*Irrespective of the denomination and/or accounting classification of the positions the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparts (other than sovereign) with full or partial government guarantees by central, regional and local governments

(mln EUR)					
2013	0	0			<p>It has not been possible to dis aggregate the Restructuring Plan into discrete transactions or portfolios; The plan represents the forecast trajectory of the bank as the bank restructures its impaired book and restores viability to its performing assets and funding position.</p> <p>The key drivers of the RWA reduction are net redemptions and the significant restructuring of the Non Performing book (per restructuring plan). This has a knock on impact on impairment charges which positively benefits CT1 levels.</p>
