(1) The Indexed Property Valuation is the historical property valuation, indexed using the latest House Price Index with a 15% discount applied to the uplift in valuation. 100% of any valuation decrease is applied.

(2a) Up to and including November 2011, properties were indexed using the ESRI/PTSB house price index. This index has been discontinued with the last published index being for Quarter 4 2010. A new index, compiled by the CSO, has since been adopted through Regulatory Notice in December 2011.

(2b) In April 2023, the CSO index has now reached the value of 166.3, which is 1.7% above its highest level at the peak of the property boom in April 2007. Dublin residential property prices are 9.1% lower than their February 2007 peak, while residential property prices in the Rest of Ireland are 2.5% higher than their May 2007 peak.

(3) Seasoning is measured by reference to the opening date of loan accounts, which are set up on the advance of new mortgage loans, on further advances and on changes to the terms of existing mortgages resulting in the amalgamation of existing loan accounts into new loan accounts.

(4) The above 116825 loan accounts were secured on 105772 properties; there may be more than one loan account against a property.
