| (1) The Indexed Property Valuation is the historical property valuation, indexed using the latest House Price Index with a $15 \%$ discount applied to the uplift in valuation. 100\% of any valuation decrease is applied. <br> (2a) Up to and including November 2011, properties were indexed using the ESRI/PTSB house price index. This index has been discontinued with the last published index being for Quarter 4 2010. A new index, compiled by the CSO, has since been adopted through Regulatory Notice in December 2011. <br> (2b) In January 2023, the CSO index has now reached the value of 167.7, which is $2.5 \%$ above its highest level at the peak of the property boom in April 2007. Dublin residential property prices are $7.3 \%$ lower than their February 2007 peak, while residential property prices in the Rest of Ireland are $2.4 \%$ higher than their May 2007 peak. |  |  |  |  |
