## Forward Looking Statement

This document contains certain forward looking statements with respect to the financial condition, results of operations and business of AIB Group and certain of the plans and objectives of the Group. These forward looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward looking statements sometimes use words such as 'aim', 'anticipate', 'target', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', 'may', 'could', 'will', 'seek', 'continue', 'should', 'assume', or other words of similar meaning. Examples of forward looking statements include, among others, statements regarding the Group's future financial position, capital structure, Government shareholding in the Group, income growth, loan losses, business strategy, projected costs, capital ratios, estimates of capital expenditures, and plans and objectives for future operations. Because such statements are inherently subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward looking information. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward looking statements. These are set out in the Principal risks on pages 17 to 20 in the 2024 Annual Financial Report and updated on page 30 of the 2025 Half-Year Financial Report. In addition to matters relating to the Group's business, future performance will be impacted by the Group's ability along with governments and other stakeholders to measure, manage and mitigate the impacts of climate change effectively. Future performance could also be impacted by geopolitical tensions and global conflict. Any forward looking statements made by or on behalf of the Group speak only as of the date they are made. The Group cautions that the list of important factors on pages 17 to 20 of the 2024 Annual Financial Report and updated on page 30 of the 2025 Half-Year Financial Report is not exhaustive. Investors and others should carefully consider the foregoing factors and other uncertainties and events when making an investment decision based on any forward looking statement.

Introduction

This document contains the required regulatory disclosures under Capital Requirements Regulation (“CRR”), Part Eight – Disclosures by Institutions (as amended by CRR3 applicable from 1 January 2025) and is prepared in compliance with Regulation (EU) 2024/3172 and Regulation (EU) 2021/763.

Basis of disclosures

AIB Group plc (‘the parent company’) is a company domiciled in Ireland and is the holding company of the Group (LEI code: 635400AKJBGNS5WNQL34).

Under Article 4 (1) (29) of the CRR, AIB Group plc is an EU parent institution. Under Article 13 (1) of the CRR, disclosure obligations as laid down in Part Eight of the CRR are on the basis of the consolidated situation of the EU parent institution (i.e. AIB Group plc).

Allied Irish Banks, p.l.c., a direct subsidiary of AIB Group plc, is a credit institution authorised by the Central Bank of Ireland (“CBI”)/Single Supervisory Mechanism (“SSM”) (LEI code: 3U8WV1YX2VMUHH7Z1Q21). Allied Irish Banks, p.l.c. and its subsidiaries: AIB Mortgage Bank Unlimited Company and EBS d.a.c. are licenced entities and are required to file regulatory returns with the CBI for the purpose of assessing their capital adequacy. In addition, AIB Group (UK) p.l.c., also a subsidiary of Allied Irish Banks, p.l.c., is a licenced entity and files regulatory returns with the Prudential Regulatory Authority (“PRA”). Goodbody Stockbrokers Unlimited Company (“Goodbody”) is a subsidiary of Allied Irish Banks, p.l.c. Goodbody is supervised per the Investment Firms Regulation (“IFR”) on an individual basis and is included in Group consolidated supervision under CRR.

AIB Group plc and its subsidiaries (collectively “AIB Group” or “Group”) prepares consolidated financial statements (“consolidated accounts”) in accordance with International Accounting Standards and International Financial Reporting Standards (collectively ‘IFRSs’) as adopted by the EU. Not all subsidiary entities are included in the scope of regulatory consolidation, Semeral Limited, Payzone Ireland Limited and relevant Securitisation Special Purpose Entities (“SSPE’s”) are fully consolidated for accounting purposes and neither consolidated nor deducted for regulatory purposes.

The Pillar 3 disclosures provide detail of how the Group has prepared and disclosed capital requirements and information about the management of certain risks as at 30 September 2025 and for no other purpose. They do not constitute any form of financial statement and should not be relied upon exclusively in making any judgement on the Group. They should be read in conjunction with the other information made public by AIB Group and available on the AIB Group website, including the Annual Financial Report for the financial year ended 31 December 2024 and the Half-Yearly Financial Report 2025.

Licensed banks within AIB Group as at 30 September 2025

Large subsidiary

Subsidiaries are not required to comply with Pillar 3 disclosures per Article 6, however, large subsidiaries are required to disclose certain information per Article 13(1). A review of the licensed subsidiaries is carried out quarterly to determine if they meet the definition of a large subsidiary. The only large subsidiary in AIB Group at 30 September 2025 is Allied Irish Banks, p.l.c. Large non-listed subsidiaries shall disclose all the information required per Article 13(1) and Article 433a(2) on an annual basis.

### Reporting conventions

Where disclosures have been enhanced, or are new, they are generally not restated or comparatives provided. Wherever specific rows and columns in the tables and templates prescribed by the EBA are not applicable to our activities, they are left blank. Comparisons against prior periods have been included in the templates as required by Regulation (EU) 2024/3172 and by Regulation (EU) 2021/763.

This Pillar 3 disclosure is reported in Euro millions for the reference date 30 September 2025 and the reference period 1 January 2025 to 30 September 2025.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

### Attestation

The Group has formal policies and internal processes, systems and controls in place to comply with the disclosure requirements under CRR. Specific governance committees are responsible for reviewing the Group's Pillar 3 disclosures and ensuring that they have been subject to adequate verification and comply with applicable standards and legislation.

"I confirm that AIB Group's Pillar 3 disclosures, to the best of my knowledge, comply with Part Eight of the CRR and have been prepared in compliance with AIB Group's internal control framework".

This report has been attested by:

Chief Financial Officer and Member of the Board of AIB Group  
Donal Galvin

## **Chapter 1. Disclosure of key metrics and overview of risk-weighted exposure amounts**

## 1: Template EU KM1 - Key metrics template

As per Article 447, points (a) to (g) and Article 438, point (b) and Article 451(1) point (f) the following template provides a summary of the main prudential and regulatory information and ratios covered by the CRR. It also includes information on Pillar 2 requirements.

Main movements between June to September 2025 are as follows:

Available own funds:

- CET1, Tier 1 and Total capital decreased by € 0.1 bn.
- CET1 does not include YTD September 2025 profits.

Risk-weighted exposure amounts decreased by € 1.0 bn primarily driven by a reduction in Credit Risk due to the sale of AIB's minority stake in AIB Merchant Services (€ 0.5 bn).

Capital ratios increased due to lower Risk-weighted exposure amounts partly offset by lower capital.

The leverage ratio 'LR' decreased in the quarter due to higher leverage exposures and marginally lower Tier 1 capital.

Liquidity and Funding:

- The September 2025 liquidity coverage ratio 'LCR' remains very strong with the ratio at 204.92%, well in excess of the ratio requirement of 100%. The average of the preceding 12 months LCR is 207.32% per row 17 on the template below.
- The net stable funding ratio 'NSFR' remains very strong with the ratio at 164.35%, well in excess of the ratio requirement of 100%.

<sup>1</sup>To date the Group has no conservation buffer due to macro-prudential or systemic risk identified at the level of a Member State nor a Systemic risk buffer.

<sup>2</sup>To date the Group has no additional own funds requirements to address the risk of excessive leverage.

<sup>3</sup>The Group is not a G-SII and therefore has no value to report for leverage ratio buffer requirement.

<sup>4</sup>Based on an average of the previous twelve months for each disclosed period.

## 2: Template EU OV1 - Overview of total risk exposure amounts

As per Article 438 point (d), the following template provides an overview of the total risk exposure amounts 'TREA' forming the denominator of the risk based capital requirements calculated in accordance with Article 92 of the CRR.  
Note: Total own funds requirements are calculated as 8% of TREA.

Risk-weighted exposure amount movements June to September 2025 :

- Credit risk decreased € 0.7 bn primarily driven by the sale of AIB's minority stake in AIB Merchant Services € 0.5 bn.
- Market risk decreased € 0.1 bn primarily due to FX Swaps.
- Operational and securitisation risk remained relatively static over the quarter.

<sup>2</sup>The amount is shown for information only, as these exposures are already included in row 1 Credit risk (excluding CCR) and related 'of which'.

### 3: Template EU CMS1 - Comparison of modelled and standardised risk weighted exposure amounts at risk level

As per Article 438 points (d) and (da) the following template provides a summary of RWA calculated according to the full standardised approach (SA) as compared to actual RWA at risk level.  
The CRR3 calculations have confirmed that the RWA of the bank are not impacted by capital floors nor are RWA impacted as a result of not deducting items from own funds.

Column a reflects RWA as per COREP for the IRB portfolio.

Column b reflects RWA as per COREP for the SA portfolio.

Column c reflects total RWA as per COREP for both portfolios and reflects the total RWA as per OV1.

Column d reflects total RWA of the IRB portfolio calculated under the SA (using the fully loaded output floor calculation) plus the actual SA RWA in column b.

Column EUd reflects total RWA of the IRB portfolio calculated under the SA (using the transitional output floor calculation i.e. corporate ungraded exposures with PD of less than 0.05% get risk weighted at 65% until 31 December 2032) and the actual SA RWA in column b.

#### 4: Template EU CMS2 - Comparison of modelled and standardised risk weighted exposure amounts for credit risk at asset class level

As per Article 438 points (d) and (da), the following template provides a comparison between RWA computed under the standardised and the internally modelled approaches at an asset class level.

The CRR3 calculations have confirmed that the RWA of the bank are not impacted by capital floors nor are RWA impacted as a result of not deducting items from own funds.

The template below shows credit risk (excluding counterparty credit risk) RWA broken down by regulatory standard approach exposure classes as per Article 112 CRR. For this purpose, RWA which are calculated with the IRB approach need to be disclosed in accordance with standardised exposure classes. The IRB exposure classes which are most affected by this reclassification are "Corporates", "Retail" as well as "Institutions".

Columns a, c, d and EUd are the same as CMS1 for credit risk row 1.

Column b reflects the RWA of the IRB portfolio calculated under the SA approach (using the transitional output floor calculation ie corporate ungraded exposures with PD of less than 0.05% get risk weighted at 65% until 31 December 2032).

		a	b	c	d	EU d

<sup>1</sup>AIB has followed the prescribed mapping for most of the exposures in columns, however there are instances where AIB has included the standardised RWEA in addition to the output floor RWEA. Specifically in rows EU5a, EU6.1b, 6.2 and EU7a.

## 6: Table EU LIQB on qualitative information on LCR, which complements template EU LIQ1

As per Article 451a(2), the below table provides qualitative information on the LCR ratio.

	Qualitative information	
(a)	Explanations on the main drivers of LCR results and the evolution of the contribution of inputs to the LCR's calculation over time	The LCR aims to ensure that a bank has an adequate stock of unencumbered High Quality Liquid Assets ("HQLA") to meet its liquidity needs for a 30-calendar day liquidity stress scenario. The LCR remained above the regulatory minimum requirement of 100% and internal risk appetite limits over the review period. The Group maintains a strong liquidity position by keeping a stable balance sheet structure that is supported by a diversified funding base. The LCR remains strong due to sustained levels of customer deposits. Customer deposits increased over the quarter (Retail deposits increased by € 0.8 bn and corporate deposits increased by € 1.0 bn). All amounts are averages of the preceding 12 months for each quarter of the relevant disclosure period.
(b)	Explanations on the changes in the LCR over time	The Group LCR for 30 September 2025 is 204.92%. The average LCR for the 12 months to 30 September 2025 increased 2.61% to 207.32% for the period under review. The increase in 12 month average for High Quality Liquid Assets is primarily driven by an increase in withdrawable central bank reserves between September 2025 and September 2024. In September 2024, there was a decrease in reserves due to the purchase of climate capital exposures from AIB Group UK plc by AIB p.l.c. € 1.7 bn, the transfer of the remaining Ulster Bank tracker loans and linked mortgages portfolio € 0.8 bn and share buyback € 0.5 bn. In September 2025, reserves increased due to funds received from the sale of AIB's minority stake in AIB Merchant services € 0.3 bn.
(c)	Explanations on the actual concentration of funding sources	The composition of the Group's funding results in a low LCR outflow relative to the overall size of the funding base, as a large proportion of this deposit base comes from Retail customers, which in aggregate provide a stable source of funding. Funding concentration by counterparty, currency and tenor is monitored on an ongoing basis and where concentrations do exist, these are managed as part of the planning process and limited by the internal liquidity and funding risk monitoring framework, with analysis regularly provided to senior management.
(d)	High-level description of the composition of the institution's liquidity buffer.	The buffer is primarily composed of Level 1 assets. Notably, reserves at central banks represents the substantial majority of the buffer at the reporting date. Diversification in the buffer is achieved through investments in Level 1 debt instruments such as government guaranteed bonds, and Level 2 debt instruments such as high quality external covered bonds.
(e)	Derivative exposures and potential collateral calls	The Group actively manages its over-the-counter ("OTC") derivative exposures arising from activity generated by corporate customers while the remainder represent hedging and trading decisions of the Group's derivative and foreign exchange traders with a view to generating incremental income. These derivative financial instruments include interest rate, foreign exchange, equity and credit derivatives. The LCR captures both contractual derivative outflows and the impact of an adverse market scenario on derivative outflows and collateral calls. In addition, derivative outflows are captured in the Group's liquidity stress testing.
(f)	Currency mismatch in the LCR	As part of its funding strategy, the Group makes use of the swap markets to support its funding needs across currencies. Matching its deposit currency mix, the main portion of the Group's liquid assets is denominated in EUR and the local currencies of key operating locations (GBP and USD). The Group's stable funding base of customer deposits is predominantly denominated in the local currency of its key operating locations.
(g)	Other items in the LCR calculation that are not captured in the LCR disclosure template but that the institution considers relevant for its liquidity profile	For LCR purposes, assets outside the Liquidity function's control can qualify as HQLAs in so far as they match outflows in the same jurisdiction. For the Group, this means that AIB Group (UK) p.l.c. HQLAs (cash held with the Bank of England) can qualify up to the amount of 30 days UK outflows under LCR.

## Chapter 3. Disclosure of use of the IRB approach to credit risk

## 7: Template EU CR8 - RWEA flow statements of credit risk exposures under the IRB approach

As per Article 438 point (h) the template below analyses the movements in risk weighted exposure amounts under the IRB approach within the period. This template excludes CCR of € 0.5 bn (June 2025: € 0.6 bn).

Main movements between June to September 2025 are as follows:

- Asset size movement primarily driven by new business in the quarter.
- Methodology movement primarily driven by loans moving from SA to IRB.
- Model update movements primarily relate to the slotting model going live.

The large decrease in quarter 1 2025 is due to:

- Methodology and policy updates mainly relate to the implementation of the CRR3.

## CRR Roadmap

CRR Ref	Article Name	AIB Group compliance reference
<b>Article 431</b>	<b>Article 431 Disclosure requirements and policies</b>	
Article 431(1)	Institutions shall publicly disclose the information referred to in Titles II and III in accordance with the provisions laid down in this Title, subject to the exceptions referred to in Article 432.	AIB Group plc Pillar 3 Disclosures at 30 September 2025 ("P3").
Article 431(2)	Institutions that have been granted permission by the competent authorities under Part Three for the instruments and methodologies referred to in Title III of this Part shall publicly disclose the information laid down therein.	AIB will publicly disclose the relevant information under Title III Qualifying Requirements for the Use of Particular Instruments or Methodologies that AIB has been granted permission by the competent authority under Part Three for the instruments and methodologies. See Article 452 - 455 below for details.
Article 431(3)	The management body or senior management shall adopt formal policies to comply with the disclosure requirements laid down in this Part and put in place and maintain internal processes, systems and controls to verify that the institutions' disclosures are appropriate and in compliance with the requirements laid down in this Part. At least one member of the management body or senior management shall attest in writing that the relevant institution has made the disclosures required under this Part in accordance with the formal policies and internal processes, systems and controls. The written attestation and the key elements of the institution's formal policies to comply with the disclosure requirements shall be included in institutions' disclosures. Information to be disclosed in accordance with this Part shall be subject to the same level of internal verification as that applicable to the management report included in the institution's financial report. Institutions shall also have policies in place to verify that their disclosures convey their risk profile comprehensively to market participants. Where institutions find that the disclosures required under this Part do not convey the risk profile comprehensively to market participants, they shall publicly disclose information in addition to the information required to be disclosed under this Part. Nonetheless, institutions shall only be required to disclose information that is material and not proprietary or confidential as referred to in Article 432.	<p>The Group maintains a formal Pillar 3 disclosure policy which is reviewed annually and subject to approval within the Group's internal governance framework.</p> <p>The Pillar 3 disclosures have been subject to internal review procedures and have not been audited by the Group's external auditors.</p> <p>Introduction: Attestation that disclosures are in accordance with formal policies and internal processes, systems and controls.</p>
Article 431(4)	All quantitative disclosures shall be accompanied by a qualitative narrative and any other supplementary information that may be necessary in order for the users of that information to understand the quantitative disclosures, noting in particular any significant change in any given disclosure compared to the information contained in the previous disclosures.	AIB will ensure all quantitative disclosures will be accompanied by a qualitative narrative and any other supplementary information that may be necessary in order for the users of that information to understand the quantitative disclosures, noting in particular any significant change in any given disclosure compared to the information contained in the previous disclosures.
Article 431(5)	Institutions shall, if requested, explain their rating decisions to SMEs and other corporate applicants for loans, providing an explanation in writing when asked. The administrative costs of that explanation shall be proportionate to the size of the loan.	AIB provides explanations of ratings decisions to SMEs whose loan applications were declined in writing, if requested. AIB participates in a formal appeals process, overseen by a Government appointed Head of Credit Review. In the case of larger corporates, written explanations are not usually requested as direct discussions with relationship managers takes place.
<b>Article 432</b>	<b>Article 432 Non-material, proprietary or confidential information</b>	
Article 432(1)	With the exception of the disclosures laid down in point (c) of Article 435(2) and in Articles 437 and 450, institutions may omit one or more of the disclosures listed in Titles II and III where the information provided by those disclosures is not regarded as material. Information in disclosures shall be regarded as material where its omission or misstatement could change or influence the assessment or decision of a user of that information relying on it for the purpose of making economic decisions. EBA shall issue guidelines, in accordance with Article 16 of Regulation (EU) No 1093/2010, on how institutions have to apply materiality in relation to the disclosure requirements of Titles II and III.	AIB complies with all relevant disclosure requirements with regards to materiality.
Article 432(2)	Institutions may also omit one or more items of information referred to in Titles II and III where those items include information that is regarded as proprietary or confidential in accordance with this paragraph, except for the disclosures laid down in Articles 437 and 450. Information shall be regarded as proprietary to institutions where disclosing it publicly would undermine their competitive position. Proprietary information may include information on products or systems that would render the investments of institutions therein less valuable, if shared with competitors. Information shall be regarded as confidential where the institutions are obliged by customers or other counterparty relationships to keep that information confidential. EBA shall issue guidelines, in accordance with Article 16 of Regulation (EU) No 1093/2010, on how institutions have to apply proprietary and confidentiality in relation to the disclosure requirements of Titles II and III.	AIB does not omit any information on the grounds that it may be proprietary or confidential.
Article 432(3)	In the exceptional cases referred to in paragraph 2, the institution concerned shall state in its disclosures the fact that specific items of information are not being disclosed and the reason for not disclosing those items, and publish more general information about the subject matter of the disclosure requirement, except where that subject matter is, in itself, proprietary or confidential.	Not applicable.
<b>Article 433</b>	<b>Article 433 Frequency and scope of disclosures</b>	

Article 433	<p>Institutions shall disclose the information required under Titles II and III in the manner set out in this Article, Articles 433a, 433b, 433c and 434.</p> <p>EBA shall publish annual disclosures on its website on the same day as the institutions publish their financial statements or as soon as possible thereafter.</p> <p>EBA shall publish semi-annual and quarterly disclosures on its website on the same day as the institutions publish their financial reports for the corresponding period, where applicable, or as soon as possible thereafter.</p> <p>Any delay between the date of publication of the disclosures required under this Part and the relevant financial statements shall be reasonable and, in any event, shall not exceed the timeframe set by competent authorities pursuant to Article 106 of Directive 2013/36/EU.</p>	<p>This publication is in line with Article 433a and Article 434</p> <p>AIB will submit the Pillar 3 disclosures to the EBA, as soon as possible after the publication of the financial report for the corresponding period on an annual and semi-annual basis. The EBA shall then publish the disclosures on its website. Subsequent to the annual/semi-annual publication by the EBA, AIB shall publish the Pillar 3 disclosures on the AIB website.</p> <p>AIB will submit the quarterly Pillar 3 disclosures to the EBA as soon as possible after the submission of the quarterly returns to the regulator. Subsequent to the quarterly publication by the EBA, AIB shall publish the Pillar 3 disclosures on the AIB website.</p> <p>During the transitional period i.e. (June 2025, September 2025 &amp; December 2025 reporting periods) AIB will publish the Pillar 3 disclosures on its website prior to submission to the EBA.</p>
<b>Article 433a</b>	<b>Article 433a Disclosures by large institutions</b>	
Article 433a(1)	Large institutions shall disclose the information outlined below with the following frequency:	AIB Group as a large institution prepares disclosures in line with this article.

<b>Article 434</b>	<b>Article 434 Means of disclosures</b>	
Article 434(1)	1. Institutions other than small and non-complex institutions shall submit all information required under Titles II and III in electronic format to EBA no later than the date on which they publish their financial statements or financial reports for the corresponding period, where applicable, or as soon as possible thereafter. EBA shall publish that information, together with its submission date, on its website. EBA shall ensure that disclosures made on its website contain information identical to that which institutions submitted to EBA. Institutions shall have the right to resubmit to EBA the information in accordance with the technical standards referred to in Article 434a. EBA shall make available on its website the date when the resubmission took place. EBA shall prepare and keep up-to-date a tool that specifies the mapping of the templates and tables for disclosures with those on supervisory reporting. The mapping tool shall be accessible to the public on the EBA website. Institutions may continue to publish a standalone document that provides a readily accessible source of prudential information for users of that information or a distinctive section included in or appended to the institutions' financial statements or financial reports containing the required disclosures and being easily identifiable to those users. Institutions may include in their website a link to the EBA website where the prudential information is published in a centralised manner.	AIB will submit its Pillar 3 disclosures from June 2025 to the EBA in xbrl and pdf format using separate zip files, the EBA shall then publish the disclosures on its website. The Pillar 3 disclosures are published on AIB Group's website ( <a href="https://aib.ie/investorrelations">https://aib.ie/investorrelations</a> ). During the transitional period for 2025 Pillar 3 publications (June, September, December), AIB may publish on AIB Groups website prior to submitting to EBA. For 2026 Pillar 3 publication onwards, AIB will not publish on the AIB Group's website before the respective submission to the EBA.
Article 434(2)	2. Institutions other than small and non-complex institutions shall submit the disclosures required under Articles 433a and 433c in electronic format to EBA no later than the date on which they publish their financial statements or financial reports for the corresponding period or as soon as possible thereafter. If the financial reports are published before the submission of information in accordance with Article 430 for the same period, disclosures can be submitted on the same date as supervisory reporting or as soon as possible thereafter. If disclosure is required to be made for a period when an institution does not prepare any financial report, the institution shall submit to EBA the information on disclosures as soon as possible following the end of that period.	AIB will submit the Pillar 3 disclosures to the EBA under Article 433a in xbrl and pdf format using separate zip files, as soon as possible after the publication of the financial report for the corresponding period on an annual and semi-annual basis.  AIB will submit the quarterly Pillar 3 disclosures to the EBA as soon as possible after the submission of the quarterly returns to the regulator.
Article 434(3)	3. By way of derogation from paragraphs 1 and 2 of this Article, institutions may submit to EBA the information required under Article 450 separately from the other information required under Titles II and III no later than two months after the date on which institutions publish their financial statements for the corresponding year.	AIB will submit remuneration disclosures required under Article 450 separately from the other disclosures to the EBA no later than 2 months after the publication of the annual financial statements.
Article 434(4)	4. EBA shall publish on its website the disclosures of small and non-complex institutions on the basis of the information reported by those institutions to competent authorities in accordance with Article 430.	Not applicable. This is an EBA activity.
Article 434(5)	5. Ownership of the data and the responsibility for their accuracy shall remain with the institutions that produce them. EBA shall provide for a single access point for institutions' disclosures and shall make available on its website an archive of the information required to be disclosed in accordance with this Part. That archive shall be kept accessible for a period that shall be no less than the storage period set by national law for information included in the institutions' financial reports.	AIB Group plc disclosures are in accordance with formal policies and internal processes, systems and controls.
Article 434(6)	6. EBA shall monitor the number of visits to its single access point for institutions' disclosures and include the related statistics in its annual reports.	This is an EBA activity
<b>Article 434a</b>	<b>Article 434a Uniform disclosure formats</b>	

Article 434a	EBA shall develop draft implementing technical standards to specify uniform disclosure formats, and information on the resubmission policy, and shall develop IT solutions, including instructions, for disclosures required under Titles II and III. Those uniform disclosure formats shall convey sufficiently comprehensive and comparable information for users of that information to assess the risk profiles of institutions and their degree of compliance with the requirements laid down in Parts One to Seven. To facilitate the comparability of information, the implementing technical standards shall seek to maintain consistency of disclosure formats with international standards on disclosures. Uniform disclosure formats shall be tabular where appropriate. EBA shall submit those draft implementing technical standards to the Commission by 10 July 2025. Power is conferred on the Commission to adopt those implementing technical standards in accordance with Article 15 of Regulation (EU) No 1093/2010.	EBA published ITS 2024/3172 on 31/12/2024: COMMISSION IMPLEMENTING REGULATION (EU) 2024/3172 of 29 November 2024 laying down implementing technical standards for the application of Regulation (EU) No 575/2013 of the European Parliament and of the Council with regard to public disclosures by institutions of the information referred to in Part Eight, Titles II and III, of that Regulation, and repealing Commission Implementing Regulation (EU) 2021/637  AIB is compliant with the ITS as per EU official journal. Article 451b (2)	Institutions shall not apply the exception laid down in Article 432 for the purposes of the disclosure requirements laid down in paragraph 1 of this Article.	Not applicable. AIB Group plc does not have crypto -asset exposures.
	TITLE III QUALIFYING REQUIREMENTS FOR THE USE OF PARTICULAR INSTRUMENTS OR METHODOLOGIES	
<b>Article 452</b>	<b>Article 452 Disclosure of the use of the IRB Approach to credit risk</b>	
Article 452	Institutions calculating the risk-weighted exposure amounts under the IRB Approach to credit risk shall disclose the following information:	See below for applicable disclosure requirements.

Article 452(a)	(a) the competent authority's permission of the approach or approved transition;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(b)	(b) for each exposure class referred to in Article 147, the percentage of the total exposure value of each exposure class subject to the Standardised Approach laid down in Chapter 2 of Title II of Part Three or to the IRB Approach laid down in Chapter 3 of Title II of Part Three, as well as the part of each exposure class subject to a roll-out plan; where institutions have received permission to use own LGDs and conversion factors for the calculation of risk-weighted exposure amounts, they shall disclose separately the percentage of the total exposure value of each exposure class subject to that permission;  For the purposes of point (b) of this Article, institutions shall use the exposure value as defined in Article 166.	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.  Annual - Template EU CR6-A – Scope of the use of IRB and SA approaches.
Article 452(c)	(c) the control mechanisms for rating systems at the different stages of model development, controls and changes, which shall include information on:	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(c)(i)	(i) the relationship between the risk management function and the internal audit function;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(c)(ii)	(ii) the rating system review;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(c)(iii)	(iii) the procedure to ensure the independence of the function in charge of reviewing the models from the functions responsible for the development of the models;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(c)(iv)	(iv) the procedure to ensure the accountability of the functions in charge of developing and reviewing the models;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(d)	(d) the role of the functions involved in the development, approval and subsequent changes of the credit risk models;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(e)	(e) the scope and main content of the reporting related to credit risk models;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(f)	(f) a description of the internal ratings process by exposure class, including the number of key models used with respect to each portfolio and a brief discussion of the main differences between the models within the same portfolio, covering:	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(f)(i)	(i) the definitions, methods and data for estimation and validation of PD, which shall include information on how PDs are estimated for low default portfolios, whether there are regulatory floors and the drivers for differences observed between PD and actual default rates at least for the last three periods;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(f)(ii)	(ii) where applicable, the definitions, methods and data for estimation and validation of LGD, such as methods to calculate downturn LGD, how LGDs are estimated for low default portfolio and the time lapse between the default event and the closure of the exposure;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(f)(iii)	(iii) where applicable, the definitions, methods and data for estimation and validation of conversion factors, including assumptions employed in the derivation of those variables;	Annual - Table EU CRE – Qualitative disclosure requirements related to IRB approach.
Article 452(g)	(g) as applicable, the following information in relation to each exposure class referred to in Article 147:	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(g)(i)	(i) their gross on-balance-sheet exposure;	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(g)(ii)	(ii) their off-balance-sheet exposure values prior to the relevant conversion factor;	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(g)(iii)	(iii) their exposure after applying the relevant conversion factor and credit risk mitigation;	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(g)(iv)	(iv) any model, parameter or input relevant for the understanding of the risk weighting and the resulting risk exposure amounts disclosed across a sufficient number of obligor grades (including default) to allow for a meaningful differentiation of credit risk;	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(g)(v)	(v) separately for those exposure classes in relation to which institutions have received permission to use own LGDs and conversion factors for the calculation of risk-weighted exposure amounts, and for exposures for which the institutions do not use such estimates, the values referred to in points (i) to (iv) subject to that permission;	Semi annual - Template EU CR6 - IRB approach - Credit risk exposures by exposure class and PD range.
Article 452(h)	(h) institutions' estimates of PDs against the actual default rate for each exposure class over a longer period, with separate disclosure of the PD range, the external rating equivalent, the weighted average and arithmetic average PD, the number of obligors at the end of the previous year and of the year under review, the number of defaulted obligors, including the new defaulted obligors, and the annual average historical default rate.	Annual - Template EU CR9 – IRB approach – Backtesting of PD per exposure class (fixed PD scale).  Annual - Template EU CR9.1 –IRB approach – Back-testing of PD per exposure class (only for PD estimates according to point (f) of Article 180(1) CRR)
<b>Article 453</b>	<b>Article 453 Disclosure of the use of credit risk mitigation techniques</b>	
Article 453	Institutions using credit risk mitigation techniques shall disclose the following information:	See below for applicable disclosure requirements.
Article 453(a)	(a) the core features of the policies and processes for on- and off-balance-sheet netting and an indication of the extent to which institutions make use of balance sheet netting;	Annual - Table EU CRC – Qualitative disclosure requirements related to CRM techniques.
Article 453(b)	(b) the core features of the policies and processes for eligible collateral evaluation and management;	Annual - Table EU CRC – Qualitative disclosure requirements related to CRM techniques.
Article 453(c)	(c) a description of the main types of collateral taken by the institution to mitigate credit risk;	Annual - Table EU CRC – Qualitative disclosure requirements related to CRM techniques.
Article 453(d)	(d) for guarantees and credit derivatives used as credit protection, the main types of guarantor and credit derivative counterparty and their creditworthiness used for the purpose of reducing capital requirements, excluding those used as part of synthetic securitisation structures;	Annual - Table EU CRC – Qualitative disclosure requirements related to CRM techniques.
Article 453(e)	(e) information about market or credit risk concentrations within the credit risk mitigation taken;	Annual - Table EU CRC – Qualitative disclosure requirements related to CRM techniques.

Article 453(f)	(f) for institutions calculating risk-weighted exposure amounts under the Standardised Approach or the IRB Approach, the total exposure value not covered by any eligible credit protection and the total exposure value covered by eligible credit protection after applying volatility adjustments; the disclosure set out in this point shall be made separately for loans and debt securities and including a breakdown of defaulted exposures;	Semi annual - Template EU CR3 - CRM techniques overview: Disclosure of the use of credit risk mitigation techniques.
Article 453(g)	(g) the corresponding conversion factor and the credit risk mitigation associated with the exposure and the incidence of credit risk mitigation techniques with and without substitution effect;	Semi annual - Template EU CR4 – standardised approach - Credit risk exposure and CRM effects.  Semi annual - Template EU CR7-A – IRB approach – Disclosure of the extent of the use of CRM techniques.
Article 453(h)	(h) for institutions calculating risk-weighted exposure amounts under the Standardised Approach, the on- and off-balance-sheet exposure value by exposure class before and after the application of conversion factors and any associated credit risk mitigation;	Semi annual - Template EU CR4 – standardised approach - Credit risk exposure and CRM effects.
Article 453(i)	(i) for institutions calculating risk-weighted exposure amounts under the Standardised Approach, the risk- weighted exposure amount and the ratio between that risk-weighted exposure amount and the exposure value after applying the corresponding conversion factor and the credit risk mitigation associated with the exposure; the disclosure set out in this point shall be made separately for each exposure class;	Semi annual - Template EU CR4 – standardised approach - Credit risk exposure and CRM effects.
Article 453(j)	(j) for institutions calculating risk-weighted exposure amounts under the IRB Approach, the risk-weighted exposure amount before and after recognition of the credit risk mitigation impact of credit derivatives; where institutions have received permission to use own LGDs and conversion factors for the calculation of risk- weighted exposure amounts, they shall make the disclosure set out in this point separately for the exposure classes subject to that permission.	Semi annual - Template EU CR7 – IRB approach – Effect on the RWEAs of credit derivatives used as CRM techniques.
<b>Article 454</b>	<b>Article 454 Disclosure of the use of the Advanced Measurement Approaches to operational risk</b>	
Article 454	The institutions using the Advanced Measurement Approaches set out in Articles 321 to 324 for the calculation of their own funds requirements for operational risk shall disclose a description of their use of insurance and other risk-transfer mechanisms for the purpose of mitigating that risk.	Not applicable for AIB, AIB do not use Advanced Measurement Approaches. Final operational risk disclosures to be confirmed under Step 2 of CRR3
<b>Article 455</b>	<b>Article 455 Use of internal models for market risk</b>	Not applicable. All market risk is treated under standardised approach.  As per COMMISSION IMPLEMENTING REGULATION (EU) 2024/3172 The new set of disclosures tables and templates should be effective when the regulatory framework for market risk based on the Basel's FRTB standards starts to apply in the Union.
