Forward-looking statements

This document contains certain “forward-looking statements” within the meaning of Section 27A of the US Securities Act of 1933, as amended, and Section 21E of the US Exchange Act of 1934, as amended, regarding the belief or current expectations of the Group, AIB’s

Directors and other members of its senior management about the Group's financial condition, results of operations and business of the Group and certain of the plans and objectives of the Group, including statements relating to possible future write-downs or impairments. In particular, certain statements with regard to management objectives, trends in results of operations, margins, risk management, competition and the impact of changes in Financial Reporting Standards are forward-looking in nature. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward looking statements sometimes use words such as 'may', 'could', 'would', 'will', 'aim', 'anticipate', 'target', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', or other words of similar meaning. Examples of forward-looking statements include, among others, statements regarding the Group's future financial position, income growth, business strategy, projected costs, capital position, estimates of capital expenditures, and plans and objectives for future operations. Because such statements are inherently subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking information.

These forward-looking statements are not guarantees of future performance. Rather, they are based on current views and assumptions and involve known and unknown risks, uncertainties and other factors, many of which are outside the control of AIB and are difficult to predict, that may cause actual results to differ materially from any future results of developments expressed or implied from the forward-looking statements. Factors that could cause actual results to differ materially from those expressed or implied include, but are not limited to, changes in economic conditions globally and in the regions in which the Group conducts its business, changes in fiscal or other policies adopted by various governments and regulatory authorities, the effects of competition in the geographic and business areas in which the Group conducts its operations, the ability to increase market share and control expenses, the effects of changes in taxation or accounting standards and practices, acquisitions, future exchange and interest rates, the risk that the Group may not participate in NAMA or that the NAMA Scheme may turn out to be unsuccessful in achieving its goals, the lack of control over the nature, number and valuation of the assets to be transferred to NAMA and the success of the Group in managing these events.

The Group cautions that the foregoing list of important factors is not exhaustive. Investors and others should carefully consider the foregoing factors and other uncertainties and events when making an investment decision based on any forward-looking statement. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this Report may not occur.

The forward-looking statements speak only as of the date of this document. Except as required by the Irish Financial Regulator, the Irish Stock Exchange, the UK Financial Services Authority, the London Stock Exchange or applicable law, AIB does not have any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, further events or otherwise. AIB expressly disclaims any obligation or undertaking to publicly release any updates or revisions to any forward-looking statement contained in this document or incorporated by reference to reflect any change in AIB's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
