Introduction

Diversity is about what makes each of us unique and includes our origins, backgrounds, personality, life experiences and beliefs. It is a combination of the visible and invisible differences that shape our view of the world, our perspectives and our approach in all aspects of our lives. It is strongly grounded in individual respect and links very closely to our brand value of Building Trust and Appreciation.

Inclusion is the extent to which we feel valued and included. It links very strongly to our engagement themes and reflects our brand value of Better Together.

Our Statement

Embedding diversity across our organisation helps us to be the best that we can be in our thinking, our decisions and our outcomes. It is fundamental to our aim to be a successful organisation that all of our customers and our people can believe in.

By respecting, developing and harnessing the talents of all our employees, we commit to creating an inclusive and supportive organisation that delivers a superior experience for all our customers, provides an extraordinary place to work for our employees, and brings an appropriate financial return for our shareholders and the economies within which we operate.
